The diversity on our campus can also be felt through our classes, student committees and residential life.

As a student of NLUO you will be part of a promising institution with a distinguished reputation for scholarship. You will find it a very friendly environment with highly approachable, expert tutors, committed to providing you with a high quality learning experience.

We aim to emerge as the learning centre of legal excellence through the following well defined course of actions:

- We believe legal education is not merely confined to class room teaching. We ensure to provide multidimensional learning experiences which integrate rigorous academic, applied, practical and cross-disciplinary perspectives to ensure a deep understanding of law in all its contexts. We provide academic environment which stimulates out of box thinking among our students.
- The dearth of quality legal research, both theoretical and applied, is another major challenge confronting legal education. In this respect, we aim to nurture quality legal research by establishing conditions most appropriate for incubating scholarly activity. For example, our well designed research projects, their defence and findings inculcate analytical, critical, comparative research skills with their articulation among our students.
- We believe best minds can create and train best young talents. So we put strong emphasis on acquiring and creating best and experienced pool of talents as our faculty members from across the globe. We provide all support for continuous development of our faculty members in the form of research initiatives, grants for attending workshops & conferences at national and international level.
- We provide best infrastructure conducive to best practices of legal education. We provide state-of-art infrastructure like fully equipped library, 24 x 7 wi-fi enabled campus, audio-visual enabled class rooms, single bedded hostel rooms etc to facilitate the learning process.

- To support our social concerns, we have adopted a multi-pronged strategy. We aim to organise quality lectures, seminar/conferences, legal aid camps to promote legal scholarship and awareness to bridge the law and society divide. This is an effort to sharpen the tool of law as an effective means for social change by helping those who are poor and needy.
