EBC

India's leading law information provider

The NLUO Law Journal is a peer-reviewed annual journal published by the National Law University Odisha. The Journal is an effort to bring together the various strands of scholarship which exist in the discipline of law and to create a forum for discussion across disciplinary boundaries. There can be no denial of the fact that the philosophical foundations of law, its origin and working in the society cannot be properly understood without a sound knowledge of other disciplines. Though, the positivists were right in promoting law as a distinct science and discipline yet in an era where boundaries are disappearing, there is an urgent need of re-establishing linkage between law and other human sciences. The NLUO Law Journal is aimed to achieve this very goal. As the 21st Century has brought new challenges and opportunities for the legal education, the journal is an initiative to provide the very best information and highly objective analysis to keep up to date with the latest developments in the field of law and other related disciplines with equal emphasis on theoretical and legal researches. Each issue of the journal will normally contain a mixture of peer-reviewed research articles, reviews of essays using a variety of methodologies and approaches, case comments and book reviews.
